DETAILED ACTION

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record to Segreto (US Patent No. 4,072,369) and Wood (US Patent No. 697,830) each disclose tubular stabbing protectors having body sections that are releasably locked over and oilfield tubular connection. However, the prior art of record fails to disclose or suggest a releasable lock that is automatically releasable by a force radially outwardly applied to the second opening of the stabbing protector as specifically called for in the claimed combination or method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
